Subject: Content Announcement

Hi Sam,

The **Ai4 Finance** conference on August 21st in NYC will focus on the top use cases of artificial intelligence in the finance industry.

Join 100+ leading finance institutions already in attendance, and learn about the top applications of AI in finance including alternative data, algorithmic trading, cybersecurity, chatbots, robo-advisors, fraud detection, credit scoring, and compliance.

Here's a snapshot of our speaker lineup:

- Manuela Veloso, Head of AI Research, JP Morgan

- Mike Schuster, Managing Director, TwoSigma

- Li Deng, Chief AI Officer, Citadel

- Agus Sudjianto, EVP and Head of Corporate Model Risk, Wells Fargo

- Scott Bauguess, Deputy Chief Economist & Deputy Director, Division of Economic & Risk Analysis, SEC

- Charles Elkan, Managing Director & Global Head of Machine Learning, Goldman Sachs

- Ambika Sukla, Executive Director - AI & Machine Learning, Morgan Stanley

-

Norman Niemer, Chief Data Scientist, UBS Asset Management

- Abhinav Anand, MD & Head of Consumer Loans, Marcus by Goldman Sachs

Apply Now: ai4.io/finance/application
